DANCE PROGRAM

Kinder Dance

Children love to dance and dance classes can nurture talent and spark the creativity of tiny dancers whilst positively impacting a child's physical, emotional, and mental health. Dance classes for Children are an activity that can be started at any age and include a variety of different dance styles. Dancing is also a way for children to learn self expression whilst developing gross motor skills and coordination. Most importantly, dancing is a fun way for them to release their energy and excitement.

CTSD Jazz

Dance is a unique combination of physical activity, social interaction and mental stimulation. But above everything, it's a lot of fun. The Jazz CSTD syllabus is a great launching pad for a journey in dance. The CSTD Jazz syllabus provides strong technique and expression along with experiencing enjoyment in an encouraging and empowering environment.

The Modern Jazz Syllabus was revised in 2017. Some of Australia's leading artists have contributed their choreography to the syllabus in both exercises and routines. The work is contemporary, technically challenging and a great preparation in all forms of jazz for today's performance demands. There are 11 Grades plus public performance awards and a Teachers' Certificate & Teachers' Diploma. The syllabus caters for children from 4 years up. RAD Ballet

With over 13,000 members spread across 83 countries, The Royal Academy of Dance (RAD) is one of the largest and most influential education and training organisations in the world. We offer their internationally-recognised 'Faculty of Education' degree programs to the younger students participating in our summer school classes in Brisbane. At whatever age or stage, anyone with an appreciation of classical ballet and jazz can participate in the work of RAD. YMCA offers examination opportunities to all students wishing to pursue graded level certificates in examinations
